

Summerwood Community

July 16, 2026

Dear Residents,

The **Summerwood** public water system has finished with our nitrification treatment and has converted back to our normal chlorine disinfection process. We would like to thank each and every one of you for your patience and understanding during this process. We remain committed to providing you with the highest quality of drinking water possible.

If you have questions regarding this matter, you may contact David James, MMIA Compliance Manager
at:

281-651-1618 or via e-mail at djames@mmia.co.
